

Palladium Phalanx

Secure. Simplify.

A Modern, Expandable Security System for Homes & Small Businesses

The Palladium PHALANX is a flexible, expandable wireless security system designed to grow with your needs. With support for up to 50 users, 96 points of protection, and 8 independent partitions, the PHALANX delivers the power of eight separate security systems in one sleek platform—perfect for homes, rentals, offices, and multi-use spaces.

The image shows a large, modern house with a white exterior, a metal roof, and several large windows with warm light emanating from inside. In the foreground, a smartphone and a tablet are displayed side-by-side, both showing the Palladium Security mobile app interface. The smartphone screen shows a live video feed from a doorbell camera, showing a smiling person. The tablet screen shows a dashboard with various status icons and a list of monitored zones. The bottom right corner of the image features the website address "PalladiumSecurity.ca" in blue text next to a yellow shield icon.

PALLADIUM PHALANX - COMPLETE SECURITY SHEILD

Next Feneration Wireless Security and Automation

Palladium PHALANX delivers a modern shield of protection, combining security, video, and smart automation into one powerful solution for both homes and small businesses. Designed for today's connected lifestyle, it brings advanced safety, convenience, and control together in a single, seamless platform.

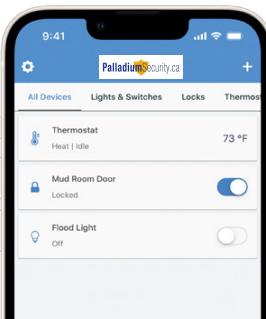

Smart control

Simplify your life with complete control of smart devices from the convenience of your mobile phone.

★ Automatic Security

Arm and Disarm your security system automatically when you lock and unlock your smart door locks.

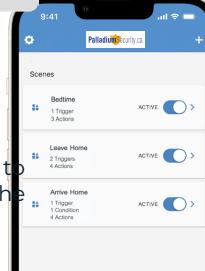

Easy to use automated scenes allow you to change the state of multiple devices at the press of a button or by triggering a sensor.

★ Always Informed
Instant notifications when the kids get home or when that important package arrives.

★ Remote Control
Can't remember if you locked the front door? No worries. Easily check the status and lock the door right from your phone.

★ Virtual Access
Create access codes that can be used to grant temporary access to your home.

★ Lights
Control smart lights from your phone or touchscreen interface. Three different ways to manage: with your phone, local touchscreens, or with automated schedules.

Peace of mind. Always.

A Modern, Expandable Security System for Homes & Small Businesses

The Palladium PHALANX is a flexible, expandable wireless security system designed to grow with your needs. With support for up to 50 users, 96 points of protection, and 8 independent partitions, the PHALANX delivers the power of eight separate security systems in one sleek platform—perfect for homes, rentals, offices, and multi use spaces

Upgrade Without Replacing Your Existing Equipment

Already have a legacy system from DSC, Ademco, or GE? The Palladium PHALANX lets you keep your existing wireless sensors, saving you money and simplifying your upgrade. There's no need to purchase new devices—your current sensors can be enrolled directly into the PHALANX, making the transition to a modern, interactive and cost effective

Smart Home Ready

Upgrade whenever you're ready. The Palladium PHALANX is fully smart-home capable, allowing you to add a video doorbell, indoor and outdoor video integration, and smart door locks using Z-Wave technology. Enhance your system even further with up to four touchscreen keypads or eight traditional PIN pads, all working alongside your smartphone app to give you complete control and visibility over every function of your security system.

View everything

No matter where life takes you, the **Palladium PHALANX** gives you a clear window back home.

With live look-in video from your connected cameras, you can check in anytime and see exactly what's happening—whether you're at work, on vacation, or just out for the evening. Stay connected, stay informed, and enjoy the peace of mind that comes from always having eyes on what matters most.

Events and Alerts

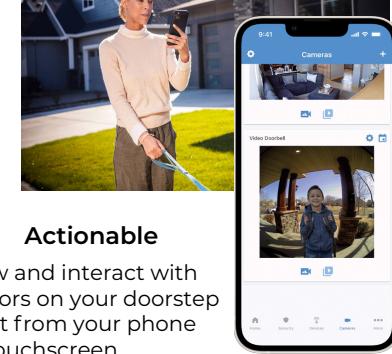

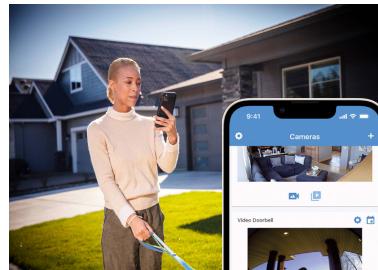

Instant push notifications sent directly to your mobile device alert you to important events as they occur, helping you quickly verify whether it's a family member arriving home or a potential intruder. Live video and immediate alerts provide fast, accurate insight—making it easier to distinguish real emergencies from false alarms and ensuring you're always connected to what matters most.

Always Connected

Rest assured knowing your home is always connected. The Palladium PHALANX uses a combination of your home Wi-Fi, Ethernet, and 5G cellular to maintain constant, reliable communication.

Gone are the days of outdated telephone lines—modern enhanced connections ensure your system stays online at all times.

With these secure communication paths, your home remains continuously linked to our central monitoring station and to your mobile device, delivering timely alerts and rapid response when it matters most.

PalladiumSecurity.ca

At your command

Whether you're ready to setup your complete smart home system now or you'd like to start with the basics and add more in the future, our products and services will be ready.

Maximize the value of your system with smart sensors that are constantly monitoring your home. From sensors that detect motion and breaking glass to sensors that monitor for smoke and deadly carbon monoxide gas, we offer a comprehensive suite of sensors to keep your property and family protected.
